The 2007 ARCTIC CAT range of All Terrain Vehicles will be the most dynamic so far, consisting of a collection of robust and well engineered models, with engine capacities ranging from 250cc up to 700cc. As you would expect from ARCTIC CAT, a high build quality, and many class leading features come as standard, as ARCTIC CAT confirms its role as a leader in innovation and technology within the ATV sector.

ATVs by ARCTIC CAT combine versatility, mobility and durability in a vehicle that is ideally suited to meet the requirements of both industry and leisure users alike. Discover a new dimension of mobility and flexibility with ARCTIC CAT.

2007 will see the introduction of two completely new products and a number of major developments within the ARCTIC CAT range, and in true ARCTIC CAT style they are unique and class leading. The 700 Diesel 3in1 is the long awaited industry workhorse that will prove to be a "the must have" machine with utility users seeking all the benefits that a diesel engine brings. Next, the highly versatile and dynamic Prowler XT, a Side-by-Side utility vehicle with many industry leading features which will also be available during 2007 as a 'road legal' product. Due to the phenomenal success of our unique 3in1 system currently offered on the 650 chassis, which allows the user to simply and effortlessly switch between either a second seat, cargo box or rack at the rear of the ATV, this option will be extended to cover both the 400 and Diesel chassis. In 2007 the already extensive ARCTIC CAT accessories program will be complimented by the all new SPEEDPOINT™ range of accessories. These specialist accessories encompass equipment such as harrows, ploughs and mowers and integrated with your ARCTIC CAT ATV add a completely new dimension to the way in which your ATV can be utilised and enjoyed.

ARCTIC CAT – As versatile as life.

1. Agriculture

Do you need a versatile and lightweight utility vehicle for agriculture? ARCTIC CAT ATVs are truly flexible all-round hard working machines that can be combined with a full range of specialist accessories ideally suited for a multitude of uses within the agricultural sector, be it arable, pastoral or viticulture, ARCTIC CAT has the tools for the job.

2. Forestry

ARCTIC CAT ATVs are the perfect workhorses, and designed to meet the requirements of the forestry professional. Our ATVs are designed to cope with the toughest terrains and can be equipped with a wide range of industry proven specialist ARCTIC CAT accessories, which help to make your job easier in those hard to work and inaccessible areas.

3. Hunting & Fishing

Outstanding off-road capabilities, robust design and specialist accessories make ARCTIC CAT ATVs the ideal companions for those hunting and fishing trips. Whether its gamekeeping, deer stalking or you just want to reach those isolated fishing locations, ARCTIC CAT helps you to achieve your goals.

4. Winter road maintenance

Ice and snow? No problem for ARCTIC CAT. Simply combine the snow plough with the winch, install your grit or salt container and switch to four-wheel drive – that's how ARCTIC CAT ATVs open the route again.

ATVs for work and leisure.

5. Equestrian holdings, Wildlife parks and Zoos

Do you need to transport fodder, muck out the stable, repair some fences or clear the streets of snow? ARCTIC CAT ATVs are the ideal working vehicle for Equestrian holdings, Wildlife parks and Zoos. The front and rear Speedrack™ system allows you to install a multitude of versatile accessories.

6. Tourism

If you're involved in the tourism industry, then ARCTIC CAT ATVs can offer your business endless options. Corporate entertainment, hotel guest attractions, rentals, outdoor pursuits, extreme sports, ARCTIC CAT has an ATV for every need and our products can help set your business apart from the competition, and add flexibility and diversity to your working practices.

7. Camping & Touring

ARCTIC CAT ATVs are the ideal companions to assist you on your journey, both on and off road. Our specialist camping accessories will awaken your imagination and spirit of adventure!

8. Leisure time & Racing

No matter what the conditions are, sport's quads by ARCTIC CAT are synonymous with pure riding fun. Two models are available with either manual or automatic transmission. Adrenalin rushes are guaranteed!

ARCTIC CAT – Features & Benefits 2007.

More **ground clearance**. More **suspension travel**. More **ATV**.

1. Speedrack™

Allows the simple assembly of an extensive range of ARCTIC CAT accessories to both the front and rear racks of the vehicle (all models except 250 2x4, DVX 250/400 and Prowler XT).

2. Electric switch from 2x4 to 4x4

Enables simple and quick switching from two-wheel drive to four-wheel drive (all models except 250 2x4, DVX 250/400).

3. Digital instrument pod

Speedometer in km/h and mph, odometer, rev counter, fuel gauge, temperature gauge, gear position indicator and a clock.

4. Clear glass headlight in modern durable multi-reflector design

Offers optimum illumination on those darkest routes combined with a stylish attractive appearance.

5. Independent front and rear suspension

Double A-arm design, offering the best traction and optimised handling characteristics on every type of terrain. (all models except 250 2x4, DVX 250/400).

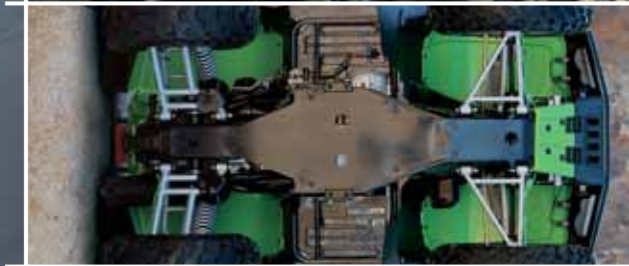

6. Adjustable front and rear shock absorbers

5-point adjustable suspension that can be fine tuned to suit varying types of terrain, thus providing excellent mobility and riding comfort.

7. Skid plate

Manufactured in a highly durable plastic to protect the underside of the ATV during off road use, will not rip, tear or corrode.

8. Lateral engine protection

Plastic casings encompass the engine and transmission, they are designed to protect the rider from possible injury or burns, keep engine noise levels to a minimum, and limit contamination to the engine and gearbox components.

9. 3in1-system

Our unique patented „3in1“ system allows the user to simply and effortlessly switch between either a second seat, cargo box or rack at the rear of the ATV. The choice is yours. (Available only on 700 Diesel 3in1, 650 H1 3in1 and 400 3in1 ATVs).

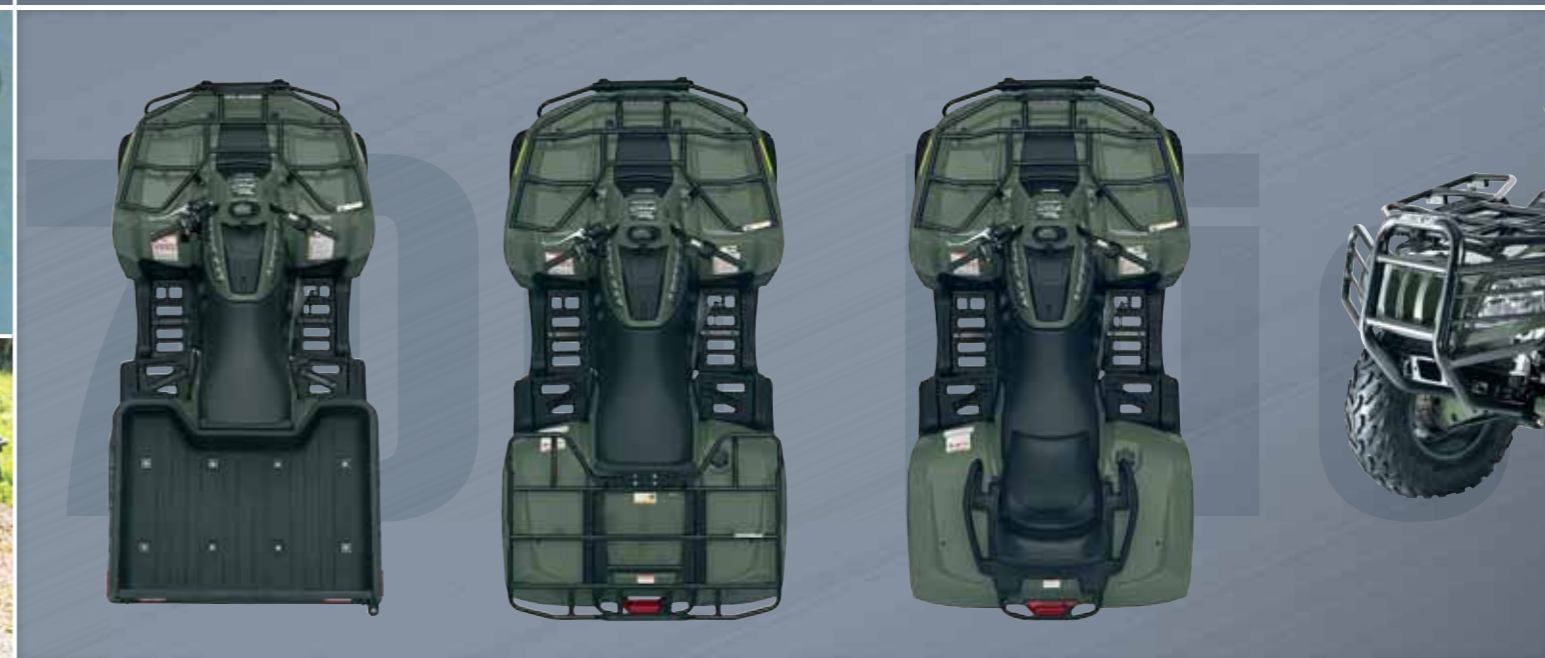

10. EU Road legal

ARCTIC CAT ATVs are available with European Union street homologation direct from our factory offering unlimited driving experience on and off road (except 700 Diesel 3in1).

ARCTIC CAT 700 Diesel 3in1. The **workhorse** - strong, versatile, economical.

ARCTIC CAT 700 Diesel 3in1.

Available colors

Once again ARCTIC CAT breaks new ground with the unique industry leading 700 Diesel 3in1 ATV, which is sure to be a winner with utility users seeking all the benefits that a modern durable diesel engine can offer. This innovative and eye catching ATV is powered by a high-torque SOHC twin-cylinder diesel engine, which is both economical and robust, whilst providing an extremely high level of traction in all conditions. The 700 Diesel ATV is further enhanced and complimented by our patented 3in1-System, which allows you to switch between either a second seat, cargo box or rear rack. A front locking differential for when the going gets really tough and a front brush guard for added protection. The longer than standard wheel-base chassis provides additional mobility benefits when riding off road. ARCTIC CAT 700 Diesel 3in1, sense not compromise!

- Robust and proven 686 ccm twin cylinder SOHC 4 stroke diesel engine
- Automatic CVT transmission with Engine Braking System
- Electric switch from 2x4 to 4x4, with front locking differential
- 30% greater fuel range compared to petrol engines, more miles for your money
- 3in1-System: allows the user to simply and effortlessly switch between either a second seat, cargo box or rack at the rear of the ATV
- SPEEDRACK™ system allows the simple assembly of an extensive range of ARCTIC CAT accessories on both the front and rear racks

Available colors

A strong 4-stroke engine, the proven 3in1-system and signature styling all add up to make the H1 our top of the range ATV which is setting new standards. Whether your requirement is for leisure or work, on or off road or having the ability to accommodate a passenger on a true second seat, the H1 does it all with ease. Our patented SPEEDRACK™ system lets you easily attach an extensive range of specialist ARCTIC CAT accessories to your ATV, further enhancing its capabilities and making it suitable for any application, whilst our unique 3in1-System allows you to simply and effortlessly switch between either a second seat, cargo box or rack at the rear of the ATV. All round fully independent and adjustable suspension, combined with the longer chassis used for this 3in1 ATV, provides excellent mobility. ARCTIC CAT 650 H1 3in1, it does everything!

- 641 ccm single cylinder SOHC 4-stroke engine
- Automatic CVT transmission with Engine Braking System
- Electric switch from 2x4 to 4x4
- 3in1-System: Allows the user to simply and effortlessly switch between either a second seat, cargo box or rack at the rear of the ATV
- SPEEDRACK™ allows the simple assembly of an extensive range of ARCTIC CAT accessories on both the front and rear racks
- Supplied for either on or off road use

ARCTIC CAT does it again with the unique Prowler XT, a versatile, robust, powerful and stylish Side-by-Side utility vehicle which will prove to be an asset to users everywhere. The Prowler brings together the off road capability and agility associated with an ATV and the load carrying capability and versatility of a small utility vehicle. At the core of the Prowler is the modern and durable ARCTIC CAT 650 H1 engine, which is both responsive and powerful. The Prowler is further enhanced by the ability to switch from two to four wheel drive at the flick of a switch, and a front locking differential for when the going gets really tough. Equipped with a tilting rear load compartment, front storage area under the engine cover, and the tightest turning circle in the industry, the Prowler really is the working man's tool of choice. ARCTIC CAT Prowler XT, experience the difference!

- 641ccm single cylinder SOHC 4-stroke engine
- Automatic CVT transmission with Engine Braking System
- Electric switch from 2x4 to 4x4
- Front locking differential
- XT version with aluminium rims, front bumper and rear-axle-stabiliser
- Tilting rear load box
- Additional loading space engine cover
- Supplied for either on or off road use

Available colors

Power is the second name for the ARCTIC CAT 650 V2. The 633 ccm liquid-cooled V-twin-engine delivers new levels of performance and power, which combined with the durable automatic transmission makes the V2 an unbeatable premium class ATV. In true ARCTIC CAT style, the V2 is equipped with a number of additional beneficial features, including a front locking differential, selectable two and four wheel drive, large 24.6L fuel tank, and fully independent and adjustable suspension. Couple these features with our unique front and rear SPEEDRACK™ system which allows you to simply assemble an extensive range of ARCTIC CAT accessories on both the front and rear racks, then this all adds up to make the V2 a very serious and powerful machine both on and off the highway. ARCTIC CAT 650 V2, mild to wild, you choose!.

- 633 ccm V-twin SOHC 4-stroke engine
- Automatic CVT transmission with Engine Braking System
- Electric switch from 2x4 to 4x4
- Front locking differential
- SPEEDRACK™ system allows the simple assembly of an extensive range of ARCTIC CAT accessories on both the front and rear racks

Available colors

Work or leisure, it doesn't matter, the ARCTIC CAT 500 4x4 can deliver it all, and with style. As you would expect from ARCTIC CAT, the 500 4x4 comes as standard with many important features, start in gear function, selectable two and four wheel drive, fully independent and adjustable suspension, eye catching body styling and our unique SPEEDRACK™ system that lets you add on many additional and versatile accessories. At the heart of the 500 4x4 is a robust single cylinder 493 ccm engine and a dependable automatic transmission, which all add up to make the 500 4x4 a wise choice for both professional and leisure use alike. ARCTIC CAT 500 4x4, you can depend on it!

- 493 ccm single cylinder SOHC 4 stroke engine
- Automatic CVT transmission with Engine Braking System
- Electric switch from 2x4 to 4x4
- SPEEDRACK™ system allows the simple assembly of an extensive range of ARCTIC CAT accessories on both the front and rear racks
- Supplied for either on or off road use

Due to the popularity of our unique 3in1 concept, this system has now been extended to encompass the 400 range. The new ARCTIC CAT 400 3in1 combines all the standard features you would expect from ARCTIC CAT, signature styling, all round full independent and adjustable suspension, electric switch from 2x4 to 4x4 along with the addition of the versatile and patented 3in1 system, which allows you to simply and effortlessly switch between either a second seat, cargo box or rack at the rear of the ATV. The front rack is also equipped with our SPEEDRACK™ system, so a wide range of additional ARCTIC CAT special accessories can be fitted with ease. This dynamic ATV is driven by a 376 ccm air-cooled 4-stroke engine and is equipped with an automatic CVT transmission as well as selectable two and four wheel drive. ARCTIC CAT 400 3in1, versatility with predictability!

- 376 ccm single cylinder SOHC 4 stroke engine
- Automatic CVT transmission with Engine Braking System
- Electric switch from 2x4 to 4x4
- 3in1-System: allows the user to simply and effortlessly switch between either a second seat, cargo box or rack at the rear of the ATV
- SPEEDRACK™ system allows the simple assembly of an extensive range of ARCTIC CAT accessories on both the front and rear racks
- Supplied for either on or off road use

Available colors

The ARCTIC CAT 400 4x4 is one of the most popular ATVs in our range, as it performs effortlessly in both on road and off road situations. Although it is at the lower end of our range, the 400 4x4 is still packed with many standard features that set ARCTIC CAT machines apart from the crowd. Fully independent and adjustable suspension, electric switch from 2x4 to 4x4, signature styling, large 24.6L fuel tank and our unique and patented SPEEDRACK™ system allows the simple assembly of an extensive range of ARCTIC CAT accessories on both the front and rear racks. The ARCTIC CAT 400 4x4 is driven by a 376 ccm air-cooled 4-stroke engine and is equipped with an automatic CVT transmission with engine braking, so its not hard to see why the 400 4x4 is such a big hit with both professional users and beginners alike. ARCTIC CAT 400 4x4, experience counts.

- 376 ccm single cylinder SOHC 4 stroke engine
- Automatic CVT transmission with Engine Braking System
- Electric switch from 2x4 to 4x4
- SPEEDRACK™ system allows the simple assembly of an extensive range of ARCTIC CAT accessories on both the front and rear racks
- Electronic switch from 2x4 to 4x4
- Supplied for either on or off road use

Available colors

With the 250 2x4, ARCTIC CAT sets new standards in the 250 class. Its technical features are as convincing as the price tag. A strong 249 ccm liquid cooled single cylinder engine provides excellent performance and is complimented by a CVT transmission with both high and low ratios. All round disc brakes, digital LCD speedometer, a high-quality final drive system and ease of use are further benefits of the 250 2x4 that all add up to make this ATV an excellent choice for many users. ARCTIC CAT 250 2x4, the compact ATV with a lot to offer!

- 249 ccm single cylinder SOHC 4 stroke engine
- Automatic CVT transmission with 2WD
- High/Low ratios and reverse gear
- Cardan shaft
- Electric starter & recoil starter
- Digital speedometer
- Adjustable suspension

Available colors

Attractive styling, quality finish and well-engineered technical features all make a ride on our DVX 250 sports quad an unforgettable experience. At the core of the DVX 250 is an agile 249 ccm 4-stroke engine coupled to an automatic transmission, supplying direct power to the rear axle. Good ground clearance, long spring travel and hydraulic disc brakes are further features that make this easy to ride sports quad stand out from the crowd. On road or off road, it's your choice, the DVX 250 looks and performs great whatever the situation. ARCTIC CAT DVX 250, let the fun begin!

- 249 ccm single cylinder SOHC 4 stroke engine
- Automatic CVT transmission with 2WD
- High ratio and reverse gear
- Adjustable front and rear suspension
- Electric starter & recoil starter
- Detachable fenders
- Light alloy wheels

Available colors

The DVX 400 combines performance, engine power and striking design to make this sports quad a class leader, which has already gathered a faithful following. The powerhouse of the 400 is a 398 ccm liquid-cooled 4-stroke engine with a manual clutch and 5-speed transmission complete with reverse gear. A lightweight, rigid steel-alloy frame with A-arm adjustable suspension and alloy rear swing arm are additional benefits that all make the DVX 400 a dynamic high-tech ATV, whether you're cutting through the mud or burning up the tarmac, the DVX 400 provides you with that ultimate feeling of freedom on four wheels. Exhilarating!

- 398 ccm single cylinder DOHC 4 stroke engine
- Manual clutch and 5 speed transmission with reverse gear
- Special sports chassis
- Adjustable front shock absorbers
- Detachable fenders
- Light alloy wheels
- Supplied for either on or off road use
